## RELEVANT COURSES

---

**Core Courses**

- AP Computer Science A
- Programming I
- Calculus I

## EXTRA-CIRRICULAR

---

**Calculus and Physics Studies**

- My passion for math and physics extends into my non-academic life. Using various sources at my disposal, I constantly and consistently strive to learn more and more complex topics.

**Programming and Computer Science**

- Since before starting high school, I have always practiced my passion which is programming and computer science. In my time of learning, I have begun many projects, most of which are linked below. It is completely open source and contains relevant documentation written by me.
